Quilt Sizes

Each standard mattress size is listed here and is represented by the white rectangle surrounded by the dotted line.

Each minimum quilt size is listed here and is represented by the gray square. These measurements are based on an 8" overhang on each side and on the foot of the mattress (except for the crib size which is only a 4" overhang on each side and on the foot).

These measurements are considered "comforter" size, which means for use with a bed ruffle and not long enough to be folded up over pillows. Please keep these minimum sizes in mind as you are purchasing a quilt.
